Premium iPad Integration
for your Smart Home

Smart Home Control Center

viveroo mounts hold the iPad securely. The iPad is charged and connected for a reliable use as your Smart Home Control Center. Timeless and minimalist design: The iPad becomes a perfectly integrated part of its environment.

iPad Wall Mounts - Made in Germany

viveroo products are made by hand. That gives them personality. Our iPad mounts are only made of genuine and high-quality material. Processed and tested with care.

At viveroo, we use real materials: pure aluminium and robust stainless steel form the core of each iPad mount. With an eye for detail, our products are carefully crafted by hand - we are perfectionists and trust in our talents. We have held every product in our hands ourselves and tested it thoroughly.

We know our partners and attach great importance to uncomplicated, personal contact - for a cooperation at eye level. Almost all our suppliers come from the region of East Westphalia. A regional product.

Sustainability is important to us. Would you like to learn more? Scan the QR code.

free

The floating and asymmetrical look of the viveroo free, stands for minimalism, simplicity and elegance. Premium Design meets smart technology. The iPad is removable and can therefore also be used as a mobile display.

viveroo mounts enable a cable based network connection. This allows a reliable integration into the system. Thanks to POE technology, only cable needs to be laid to the interface. The iPad is charged and can therefore be used continuously.
